FCSM Study Abroad/Away by Program Type AY 2022-23

"Leading this program for the past 10 years has enhanced my own biological knowledge, especially with regard to tropical rainforest ecology. Many things that the guides point out are things that I am now familiar with. I have also been able to practice my Spanish language skills, something I truly enjoy each year. One of the guides has visited Maryland several times, extending our collaborations and allowing us to have 'student reunions' after we return."
