

This installation is a contemplative offering.

Proceed slowly and mindfully.

There are delicate objects on the floor.

How to...

...reveal a fortune:

Carefully lift a clay pod from the black circle near the labyrinth.

Slowly make your way to the center of the path.

Using your hands, break the pod open over the large vessel.

Read the paper inside & bring it with you as you retrace your steps.

Hang it alongside the others by gently folding the doubled end around the rope.

...make a wish:

Find a friend.

Gently lift a wishbone, picking it up from the midpoint.

Hold one side of the bone while your friend holds the other.

Make a wish as you break it.

Place the pieces on the discard pile.

Thank you for participating.

Lee.
