

Using the Planner

The Planner function provides students with a tool to plan courses for a single term, multiple terms, or an entire program of study. Students can also take actions directly from the Planner, including adding courses to the Shopping Cart and/or Schedule Builder, and directly enrolling in courses when enrollment is available. Undergraduate degree-seeking students may wish to use the Planner in conjunction with the formal [Degree Completion Plan \(DCP\)](#), which is required of students with 45 or more earned units.

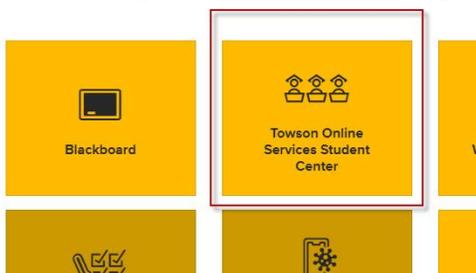

Please note the Planner is a degree completion tool only and does not constitute a contract with the university to offer courses or graduate students in a particular term.
